

Textile Center Supply List

Ready Set Sew: Face Masks

Kathleen Richert

Please bring with you to class:

Materials fee \$7, payable to the instructor (includes pattern, elastic, cotton fabric) at class.

- A working sewing machine with foot control and user's manual (for troubleshooting)
- A spool each of white, grey and black thread, or matching thread if bringing your own fabrics
- Small scissors
- Large fabric shears or rotary cutter
- Instructor will supply the pattern, elastic and some cotton fabric, but you can also bring your own 100%, prewashed cotton fabric

Optional:

A clear plastic, gridded ruler is also helpful, if you have one bring it along. Textile Center has some to use, and they can be used if they are sanitized after every student.

There will be time reserved at the end of class for clean up. Please help this process go quickly by assisting the instructor.

Parking is available in the lot behind our building, as well as our newly purchased lot at 3018 University Ave SE. Look for the green signs.

You can enter through the back door of the building. Please ring the buzzer.
