

ADDITIONAL ARTIST SERVICES

Photo Services:

FedEx Kinko's

Probably the most widespread and one-stop option, these stores have computers with Adobe Photoshop and Microsoft Word, can scan your slides or photographs and burn CDs. Visit www.fedex.com to find the location nearest you.

Springboard for the Arts has a great site to locate local professionals to document and digitize your work. Visit it online at their [Art Service Directory](#).

Digital Imaging Software:

There are a variety of products that can help you format your images successfully. Packaged software is available to purchase as well as free downloadable software. Recently various websites are offering online image editing tools as well.

Adobe (<http://www.adobe.com>) currently provides two photo editing products—Adobe Photoshop and Adobe Elements--that are very popular among today's designers and artists. Adobe Elements, the less-expensive option, provides a free 30-day trial if you would like to try the program before purchasing.

Get Paint (<http://www.getpaint.net>), a free open-source program for Windows-based computers, can also help to format images successfully. If you are a Mac user, download **Gimp (<http://www.gimp.org>)**, a useful image-editing program.

Sumo (<http://www.sumopaint.com>), **Aviary (<http://aviary.com/home>)**, and **Pixlr (<http://www.pixlr.com>)** are some of the few websites out there that offer image-editing right in the browser.

Books:

Numerous books and articles are available on the subject of digital photography and imaging. A trip to the local bookstore or camera shop, a visit to amazon.com, or an Internet search for something like "take good digital photographs" or "scanning slides" should turn up plenty of information sources.

Digital Photography: An Introduction by Tom Ang is a helpful guide to the basics of the medium. Chapters 3 and 4 are especially helpful for turning your existing images into digital files. It retails for about \$15.
